SUMMARY

Recent Bachelor of Science in Information Technology graduate with hands-on experience in Android application development, web development, educational software, Unity game development, and multimedia production. Skilled in building responsive user interfaces, integrating Firebase services, and delivering complete software solutions from concept to deployment. Passionate about creating intuitive, user-focused applications while continuously expanding my knowledge of modern technologies and software development practices.

EXPERIENCE

Intern Web Developer

February 17, 2025 – June 11, 2025

Bureau of Animal Industry – Quezon City, Philippines

- Assisted in developing and maintaining internal web applications.
- Developed responsive web pages using HTML, CSS, JavaScript, and PHP.
- Worked with MySQL databases to manage and maintain application data.
- Collaborated with team members to improve application functionality, usability, and performance.
- Participated in software testing, debugging, and maintenance to ensure application reliability.
- Successfully completed 500 hours of professional on-the-job training.

PROJECTS

DoPalette

Android Coloring Application

• Kotlin • Firebase Authentication • Firestore • Android SDK • AdMob • Published on Google Play

- Designed and developed a feature-rich Android coloring application featuring brush tools, bucket fill, offline artwork saving, and image export.
- Integrated Firebase Authentication, user profiles, achievements, and a community artwork-sharing system.
- Designed a responsive interface optimized for both phones and tablets.
- Focused on performance optimization, usability, and an intuitive user experience.

Dosevia

Medication Reminder Application

• React • TypeScript • Capacitor • Android • Open Beta Testing

- Built a medication reminder application with customizable schedules and notifications.
- Implemented persistent local storage and reminder management.
- Designed a clean, accessible, and user-friendly interface.
- Optimized the application for performance and usability on Android devices.

PolyPath

Educational 3D Learning Game

• Unity • C# • Blender

- Developed an educational PC game that teaches beginners the fundamentals of 3D modeling.
- Designed a progression-based learning system to improve engagement and retention.
- Created 3D assets, environments, lighting, and animations using Blender and Unity.
- Completed as a research-based capstone project focused on educational gamification.

TECHNICAL SKILLS

Languages

- JavaScript
- PHP
- Java
- Kotlin
- C#
- C++

Frontend

- HTML5
- CSS3
- Responsive Design

Database

- MySQL
- Oracle SQL
- Firebase

Tools

- Visual Studio Code
- Android Studio
- Git
- GitHub
- Unity
- Blender
- Arduino

Concepts

- Software Development
- Web Development
- Android Development
- UI/UX Design
- System Analysis
- Database Design
- Game Development
- 3D Modeling
- Problem Solving

EDUCATION

Bachelor of Science in Information Technology
Technological Institute of the
Philippines – Quezon City

Graduated: August 5, 2025

CERTIFICATIONS

- Attention to Detail Certification (TestDome) — Top 25%
- Cybersecurity Training (Manulife, 2025)
- Robotics with Arduino Workshop (JPCS, 2023)
- Practice Job Interview Certification (Wadhvani Foundation, 2025)
